

# Plane Crash in C

Rilo Kiley

If you're scared and it shows  
Cause you're watching them grow  
And traveling blows  
When you're out of road  
And when you jump up  
The earth wants you back

Your resentment grow  
Till you're all alone  
But you're so smart  
How could they not know  
When you're standing there  
In good humored white

And how do you do it  
And make it seem effortless  
When it's all the stupid things  
So overwhelming to me  
Like paying my bills  
Or showing up for work early  
Or laughing at your jokes

When you first said  
That anything goes  
Or a problem is a task  
Disguised in work clothes  
That's when I knew I had to move

And how do you do it  
And make it seem delicate  
When it's all the stupid things  
So damn confusing to me  
Like talking it through  
Controlling my temper  
Like letting it go  
Saying please forgive me  
Or laughing at your jokes

I have no idea what's  
Been going on lately  
And I just wish you'd  
Come over and explain things

And I have no idea what's  
Been going on lately  
And I just wish you'd  
Come over and explain things

And I have no idea what's  
Been going on lately  
And I just wish you'd  
Come over and explain things

And I have no idea what's  
Been going on lately  
And I just wish you'd  
Come over and explain things

Why do they do it  
Show up anyway  
When they know that damn well  
There is no room  
For promotions out here  
And maybe it's wise  
And maybe I'm just stupid  
For laughing at your jokes
