## **Under the Blacklight**

When you get sober Will you get kinder Cause when you get uptight It's such a drag

When I get older I won't remember Until that day comes I've got something on you

Under the blacklight Out in the garden Into the pale moon I'll be waiting

Under the blacklight Under the blacklight

Even dead men Lie in the their coffins It's been a long time Since you felt better

Under the blacklight Out in the garden Into the pale moon I'll be waiting

Under the blacklight Out in the garden Into the pale moon Under the blacklight

Somewhere in Laredo Borders a soft man Like a black widow I'll be crawling

Under the blacklight Out in the garden Into the pale moon Under the blacklight

Down in the valley Up in the dark blue Under the blacklight Under the blacklight **Rilo Kiley**
