We'll Never Sleep (God Knows We'll Try)

Rilo Kiley

Stealing away into the night Won't get you any higher We'll never sleep God knows we'll try The hospital is closed

And how long will it last Before we go insane?

We circle your uncle's parking lot Just to se how many times that we can Before we get caught You guessed on twenty

And how long will you stare Before I look away? I don't want to go

Begged them to stay
They're on holiday
Just close the door
You can watch final four
And just fall away

Sailing away just isn't right Just because you're angry If you go I think I might Lose it all together

And how long will we last Before we go insane? I don't want to
