

# Anthem

Ringo Starr

This is an anthem for peace and love  
We gotta keep trying, we can't give up  
This is the day, no turning away  
This is an anthem

You think you got it covered  
You say you know the score  
But people are dying, there's no denying  
But do we, do we know what for?

We know, we know, we know  
We know, we know, we know it's true  
We know, we know, we know  
What we've gotta do

This is an anthem of peace and love  
We gotta keep trying, we can't try enough  
This is the day, no turning away  
This is an anthem

It's not all knives and bullets  
It's from hunger, too  
But never say never, let's get it together  
'Cause we know, we know what to do

We know, we know, we know  
We know, we know, we know it's true  
We know, we know, we know  
What we've gotta do

We know, we know, we know  
We know, we know, we know it's true  
We know, we know, we know  
What we've gotta do

This is an anthem of peace and love  
We gotta keep trying, we can't try enough  
This is the day, no turning away  
This is an anthem

No man ever made it on his own  
No man ever made it all alone  
We've gotta help out  
And we've gotta shout

This is an anthem  
(This is an anthem)  
This is an anthem  
(Of peace and love)  
This is an anthem  
(This is an anthem)  
This is an anthem  
(Of peace and love)
