

# It's No Secret

Ringo Starr

Lately, i've been so crazy,  
I wanna talk to you,  
I need to talk to you.

And lately, you ain't my baby,  
I want a word with you, (i want a word with you)  
A moment alone with you.

'Cause you, you were a part of my heaven, my shining star.  
And now, i look at you and i wonder just who you are.

It's no secret,  
What your love, (what your love) what your love is doing to me  
It's no secret,  
That your love, (that your love) that your love, that your love is killing me.

(oo - oo)  
(oo - oo)

Lately, i've been so lonely,  
I need a smile from you, (i need a smile from you)  
Something to pull me through.

But we know, love can be mellow,  
If we can just talk it through, (we can just talk it through)  
It's gonna feel brand new. (feel brand new)

'Cause you, you were a part of my heaven, my shining star.  
And now, i look at you and i wonder just where we are.

It's no secret,  
What your love, (what your love) what your love is doing to me  
And it's no secret,  
How your love, (how your love) how your love, how your love is hurting me.  
(how your love is hurting, how your love is hurting)

It's no secret,  
What your love has meant for me.  
And it's no secret,  
What your love, what your love is doing to me.

It's no secret,  
That your love is hurting me.  
And it's no secret,  
That your love, that your love is killing me.

It's no secret,  
How your love is hurting me.
