

Time

Ringo Starr

Time waits for nobody
And nobody waits for time
Life is for the living
All we have to do is shine.

Forget about yesterday
This is the best day of your life
You better not fade away
Today is the best day of our life, alright.

I've seen a lot of joy
I've seen a lot of pain
Things I've had to go through
To get back on track again.

Now I can forget about yesterday
This is the best day of our life
I'm glad you didn't fade away
Today is the best day of our life, alright.

People have their problems
I know it's true
I have mine, you have yours
But I'll be there, yes, I'll be there for you.
