

# No Pity For A Coward

Rings Of Saturn

Dry your eyes  
Hide your face with your hands  
One last breath  
Hold it in

Fuck your past  
The future  
Is in your hand

Just sit back and relax  
Put your fucking shades on  
Put that gun to your head  
You're a fucking disgrace

Can your god save you now?  
You coward  
Drowning yourself  
In your tears  
No one has  
Pity for you

Pity for you  
Seconds from the end  
What's it gonna be  
Pull the trigger bitch
