

# Unsympathetic Intellect

## Rings Of Saturn

The Devil himself  
Is sicken with fear  
Make him my minion  
The Apex Predator has arrived.  
Hell is empty for these demons and dimension  
Will fucking disintegrate  
In the glory of my preeminent power.  
The one that you all call God  
Will find himself on the brink of my abysmal new realm  
Reclaim our home.  
From his eyes will gush the birth of a new hierarchy.  
A new planet  
Stripped of all reason.

Unsympathetic intellect  
Gazes upon this swarm of mortals  
In revulsion blessed are the dead  
Whose cadavers are perished by your hand.  
For you will join your fictitious deity.  
For you will join them all.

Fuck.

Break their fucking limbs until their bones rip through the skin.  
Nobody escapes the sphere alive.  
No man, no god.  
Smother the mothers carcass  
In the blood of her infants.  
Smother the mothers carcass  
In the blood of her infants.

Earth,  
A malignant tumor  
On the face of the universe.  
Spectral beings will rise once again.
