

# Endgame

Rise Against

And on that day they'll tell you  
That life hung on with no clue  
The warning signs were all just  
Missed or shattered down, so it goes

The kings all failed to tell us  
The madmen failed to sell us  
Of what would then befall  
The only life we know

When they're burning signal fires  
To guide us to the fields  
We're building funeral pyres  
They all commit a final appeal

The city lines are down  
The kerosene's run out  
The fact surreal, oh, we relied upon  
I shed the sun clean skin  
And start to feel again  
'Cause all the shoulders, I wish to cry on are gone

The paranoia gripped us  
Berate and then consume us  
The panic set in like a cancer to our hearts  
Spreading through

We've been on fire like genius  
I pray for god to save us  
There was no answer, though  
Disease tore us apart

We left bodies in the fields  
So numb that we forgot how to feel

The city lines are down  
The kerosene's run out  
The fact surreal, oh, we relied upon  
I shed the sun clean skin  
And start to feel again  
'Cause all the shoulders, I wish to cry on are gone

He looked at the fields and then his hands  
All I need is what I have  
Then fell a tear of happiness, oh, oh, oh, oh

She watched it all crumble away  
Is this the end of yesterday?  
"Lord, I hope so" is all he said

All I've got are the organs  
Got all the cold, cold wars  
And as we go forth  
I pray we'll remember this day

Oh, we relied on now

The city lines are down  
The kerosene's run out  
The fact surreal, oh, we relied upon  
I shed the sun clean skin  
And start to feel again  
With no more shoulders, shoulders to cry on now

No more, no more  
No more, no more, no more, no more  
The weight that we once felt is gone
