

## Far from Perfect

Rise Against

Keeping up appearances  
Don't break now or buckle from the weight  
Pretend to laugh but don't laugh too loud  
Do you feel the pressure building  
The anger spilling out now

Meanwhile the cracks have formed on  
The masks we've worn up 'til now

We are far from perfect but perfect as we are  
We are bruised, we are broken  
But we are goddamn works of art

Works of art  
The pieces of our hearts all gravitated  
Together but before we could be part of  
This mosaic we had to break apart  
Like glass we're falling faster than stars

Meanwhile the cracks have formed on  
The masks we've worn up 'til now  
Take a look

We are far from perfect but perfect as we are  
We are bruised, we are broken  
We are goddamn works of art

In every color we shine  
A tapestry of scars with every thread  
We're growing stronger and moving on  
We're finding right ways despite the wrong ones  
We're clearing paths blocked by storms  
We're finding the beauty in what you've ignored

We are far from perfect but perfect as we are  
We are far from perfect but perfect as we are  
We are bruised, we are broken  
But we are goddamn works of art  
Yeah we are, perfect as we are, perfect as we are
