

# Radioactive

Rita Ora

Palms to the sky  
We unite  
I'm feeling, I'm feeling it, feel-feeling it  
We rise tonight

(Hey, take a look at you)  
(Hey, take a look at you)

I'm checking you out in your sweet desire  
I'm coming over to make you mine  
It's a crime, boy, you're so fine

I'm taking you out, boy, it's a green light  
I'm glad you came over, it was about time  
It feels right, boy, you're so fine

This goes radioactive  
Drop the ball, let me feel the beat  
This goes radioactive  
Drop the ball, let me feel the beat

Palms to the sky  
You know,  
I'm feeling, I'm feeling it, feel-feeling it  
We rise tonight

Palms to the sky  
We unite,  
I'm feeling, I'm feeling it, feel-feeling it  
We rise tonight

Moving on me as the world ends  
This nuclear heat is a beautiful air  
You might not live to tell

This goes radioactive  
Drop the ball, let me feel the beat  
This goes radioactive  
Drop the ball, let me feel the beat

Palms to the sky  
You know,  
I'm feeling, I'm feeling it, feel-feeling it  
We rise tonight

Palms to the sky  
We unite,  
I'm feeling, I'm feeling it, feel-feeling it  
We rise tonight

(Hey, take a look at you)

Palms to the sky  
You and I  
Palms to the sky  
You and I  
Palms to the sky

You and I  
We rise tonight

Palms to the sky  
You know,  
I'm feeling, I'm feeling it, feel-feeling it  
We rise tonight

Palms to the sky  
We unite,  
I'm feeling, I'm feeling it, feel-feeling it  
We rise tonight

We unite,  
You and I are right tonight  
We unite,  
You and I are right tonight  
We unite,  
You and I are right tonight  
You and I are right tonight
