## **Roc the Life**

My way in London, Americana The persona, it's primadonna Kick a motherfucker to the cizzurb You think you crazy, I'm berserk

I'm off the chain, you gotta love it I can't express enough, how bad I want it Maybe one day, I wanna be there Beyond the stars, like a zillionaire

I brought my clique up in here Put them diamonds in the air You can hate this all you want But we gon' take this everywhere

Don't pay them, no never mind You're just a waste of time Baby watching from the sideline

While I roc the life li li la la li li life While I roc the life li li la la li li life While I roc the life

I see the lights, see the money Super glamorous Fresh off the runway Wanna be infamous

Notorious as directed According to us, whiskey nights Gettin' it in to tear blowing money fast Get it again

Maybe one day I'll live there Beyond the stars Like a zillionaire I brought my clique up in here Now put your diamonds in the air You can hate this all you want But we gon' take this everywhere

Don't pay them, no never mind You're just a waste of time Baby watching from the sideline

While I roc the li li la la li li life While I roc the li li la la li li life While I roc the li li la la li li life While I roc the li li la la li li life While I roc the li fe

Oh oh, we're gon' make this day last forever Oh oh, I'll make this the night to remember No surrender

Write my name on stars So you can see it **Rita Ora** 

```
Wherever you are
Please believe it
I'mma take it all
Ain't gonna stop
Until I fall fall fall fall
Write my name on stars
So you can see it
Wherever you are
Please believe it
I'ma take it all
Ain't gonna stop
Until I
Oh, I wanna roc the life
While I roc the life li li la la li li life
While I roc the life li li la la li li life
While I roc the life li li la la li li life
While I roc the life li li la la li li life
While I roc the life
```
