## **Stay Beside Me**

## **Ritchie Valens**

Stay beside me, here beside me Stay beside me day after day When I'm feeling blue, let me look at you Oh my darling, please won't you say

You'll stay beside me, help & guide me Never never leave me alone Trust & love me, be proud of me Let me keep your heart for my own

With your love, you make me strong Come to me where you belong

Stay beside me, close beside me You must know it's you I adore You were meant for me, you will always be My true love forever more
