

Bloody Murdah

Rittz

Shit my flows aggressive
I've been told that it's so impressive
Might have heard me on my smoking session
Sounding nasally, but mainly cause my nose is messed up
I've been out in California so I'm blown and catch up
There's no one fresher
No one ever cop from me
Is it because there's so many dope white boys out now I'm chopped liver
But if you want Rittz, then this is what I give ya
This singer tingly, I brought the rest of the South with us
Just follow my outfit is, so loud on the cloud thickest
So while I'm down in town I ain't got time to chasing the gossipers
Slumerican the clique if they ain't wit' us, they not wit' us
A monstrous platinum murdering your an eye witness
Run for cover, thundering puffing its die bitches
Your five figures on it, then a trip is to founder us
See your body dumped in that Chattahoochee to drown
Y'all fuck around in shit get done tryin' to puff
