Fuck my life it's how I feel when I wake up  
I don't see the light inside this tunnel of mine  
My girl just left I guess we're gonna break up  
Minus fucking around with some other guy  
My homie wanna go and kicking some other time  
I'm dead broke and worked another one of the day  
My car broke down and tolled a trunk in the way  
My buster really give a fuck he wrote me up late  
He gon' fuck around and then he getting punched in the face  
But I gotta control my temper 'cause I wanna get paid  
For this restaurant I wanna set it and blaze  
And take my own life I'd do it if I wasn't afraid  
And I would live so fuck slitting my wrist  
'Cause if I was dumb enough to commit I'd would use a gun  
Glue me getting drunk and my road for months  
And now my parents on my bare said they lose a song  
But what if I went on home and found my sister then  
And with the brother and the color saw what my brother did  
Got a house the size of my little cousin's crib  
And I complain to blame on the jaws of dead  
And now my partners saw my zilly 'cause my storm begins  
This puppy jumped again and get a punch to kick  
A bunch of hoes in the wall checking off the trip  
And to the dark side, anybody coming with

Like to say they're fond to me  
Everything around me is crumbling  
If you feel the same then come with me  
'Cause misery loves company  
Everybody seems so bumbly  
Does anybody feel as bumbed as me  
If you do then come with me  
'Cause misery loves company  
Misery loves company  
Misery loves company  
Misery loves company  
Misery loves company

Fuck these new ports 'cause I can't afford them  
I'm sick and tired of all my homies wanting to bum one  
It's funny that I use the word bum  
'Cause if I don't come up soon rap then I'ma probably become one  
I feel like people talk behind my back where I come from  
If they supporting me I'd be a relic of one tone  
But every time I stumble across upon some critic  
They call me fat and ugly why the fuck are some dumb  
Kid on the internet as we off as much  
I just did discuss it like I lost my touch  
They don't realize how many lies are at stake  
My faith rise on this give me some pies for once  
When they see me they gon' wish I had some boxing gloves

'Cause then at everybody like I'm some obnoxious drunk  
Came in the shot one said I'm a shawty fat  
And apart the drunk  
Radio here we go we lost it ,run  
The sunshine is gone can't our way in the dark  
Legging in the bed and make pray to God  
Bitch show me a better way to make it and lost  
I thought I found my lady but she breakin my heart  
The sinners hittin the thought but she's gone for good  
And saw to put on her happy face just forget  
So I pop me a pill take enough the trick  
Until the dark side anybody coming with me  
I say

Like to say they're fond to me  
Everything around me is crumbling  
If you feel the same then come with me  
'Cause misery loves company  
Everybody seems so bumbly  
Does anybody feel as bumbed as me  
If you do then come with me  
'Cause misery loves company  
Misery loves company  
Misery loves company  
Misery loves company  
Misery loves company

Dear Lord is it really all in my head  
Lately I've been thinking I'd been better off dead  
I tell my girl she think I'm playing I bet  
One day she gon find me dead in our bed  
I'm pathetic guy lid all the simple shit bother me  
And I'm gonna be a baby bottle inside of me  
Until I call to see the day  
Suicidal with society would be a little minus  
I don't think they really miss me when I'm gone  
My lady she can go and suck as many dicks she wants  
My family photos will be now without me in them  
And my friends don't have to talk behind my back and  
try to farm  
They want me to make it and I know they really don't  
They just want to see me broke unless I can take 'em  
with  
So they can get a free ride and I'm tryin to make a  
grip  
Out the sweat and the tears I dont put  
I just signed a record deal why the fuck am I so pissed  
Maybe I'm just scared I'm a fail and I'm still  
That these industry people don't wanna give me no props  
'Cause on a scale to 1 to 10 I'ma trip on myself  
In the bum with the bottle getting drunk as shit  
Unhealthy my liver has had enough again  
Fuck that I'm in trouble take enough the trip  
To the dark side anybody coming with

Like to say they're fond to me  
Everything around me is crumbling  
If you feel the same then come with me  
'Cause misery loves company  
Everybody seems so bumbly  
Does anybody feel as bumbed as me  
If you do then come with me  
'Cause misery loves company
