

# I Want More

Rival Sons

Got to say what I think and think what I say  
Just give it to me or I'll take it away  
Gonna take, take, take, take, take it on  
I wanna live my life before it's gone

'Cause I want more, I want more  
I want more, I want more  
And I told you once and I told you twice  
If you wind me up you're gonna pay the price

What I see got me so confused  
I got a a choice to make but I just can't choose  
Don't take, take, take, take away from me  
I wanna live my life, I just wanna be free

'Cause I want more, I want more  
I want more, I want more  
'Cause I told you once and I told you twice  
If you wind me up you're gonna pay the price

'Cause I want more, I want more  
I want more, I want more  
And I want more, I want more  
I want more, I want more  
I want more, I want...
