

Manifest Destiny, Part 2

Rival Sons

You know we watched your soldiers
From the hills last night
And we'll keep on watching
Until the morning light

We're taking lives at dawn
We're taking lives at dawn

Do it for the dead

I can see the eagle
On way up high
And if I take my journey
I'm gonna shoot through the sky

We're taking lives at dawn
We're taking lives at dawn

Do it for the dead

You know my wife and children
Had hair so black
Now there's nothing you can do
That will bring them back

We're taking lives at dawn
We're taking lives at dawn
We're taking lives at dawn
We're taking lives at dawn
We're taking lives at dawn
We're taking lives at dawn
We're taking lives at dawn
We're taking lives at dawn
We're taking lives at dawn
We're taking lives at dawn
