Play the Fool

Rival Sons

It took a while before I figure it out
Don't wait the girls talk all bout the school
I step around through all of my doubts
But then you weapon above the golden moon

Uuh, you know I play the fool
Uuh, you know I play the fool

Well I'm a man and a man ain't gotta cry
Well the boys talk all bout the school
I got inside you when you took me for a ride
You was almost chill and now bent all

Uuh, you know I play the fool
Uuh, you know I play the fool
Uuh, you know I play the fool
Uuh, you know I play the fool
Yeah play the fool

Uuh, you know I play the fool
Uuh, you know I play the fool
Uuh, you know I play the fool
I play the fool, I play the fool, play the fool
