

Secret

Rival Sons

Waiting for a cold night
Cold, but nobody else can see[?]
And if I still wanna go
I'll beg by your soul - waiting and pushes for me

I'm gonna tell you a secret
I'm gonna tell you a secret
And I know you're gonna keep it

Good passed out two leaves on the stove
And the water is dark and deep
And don't get too cold
With your [?] weighin' that deep water for me

I'm gonna tell you a secret
I'm gonna tell you a secret
And I know you're gonna keep it
Lemme tell you a secret
And I know

Gonna bust your grave, your
I owe you oh I luv you
Burn the sit from your father
Bring me a job full of shadow
Wait in the bushes for me

I'm gonna tell you a secret
I'm gonna tell you a secret
And I know you're gonna keep it
Lemme tell you a secret
And I know
