

Not Over Me

Riverdales

One two one two three four

We had such a cool time
Staying up all night
So what happened to you
What do you got you gotta prove

You're not over me, I bet you wish that
You were over me, I know the truth that
You're not over me, you're not over me,
And I'm not over

You were always so rad
You took off so too bad
So what happened to you
What do you got you gotta prove

You're not over me, I bet you wish that
You were over me, I know the truth that
You're not over me, you're not over me,
And I'm not over you

You're not over me, I bet you wish that
You were over me, I know the truth that
You're not over me, you're not over me,
And I'm not over

You're not over me, I bet you wish that
You were over me, I know the truth that
You're not over me, you're not over me,
And I'm not over you
