Not Over Me

Riverdales

One two one two three four

We had such a cool time Staying up all night So what happened to you What do you got you gotta prove

You're not over me, I bet you wish that You were over me, I know the truth that You're not over me, you're not over me, And I'm not over

You were always so rad You took off so too bad So what happened to you What do you got you gotta prove

You're not over me, I bet you wish that You were over me, I know the truth that You're not over me, you're not over me, And I'm not over you

You're not over me, I bet you wish that You were over me, I know the truth that You're not over me, you're not over me, And I'm not over

You're not over me, I bet you wish that You were over me, I know the truth that You're not over me, you're not over me, And I'm not over you
