

# Things Are Getting Complicated

Rivermaya

The world is churning too fast  
How long does time last?  
All the questions get debated  
Things are getting complicated  
It's a little too intense  
It don't make any sense  
Please excuse me, I'm sedated

This is too complicated  
[Repeat chorus]

Find you hands off life's guide  
Or die young in empty cradle  
I don't feel elated  
This is going to be complicated
