Come To My Pod

Rivers Cuomo

Come to my pod There's no one there, we'll be alone We can talk And if you want to, we'll get stoned And relax, have fun In my pod

In your pod no one knows the Things we do, We'll get high, if you want to We'll sniff glue And relax, have fun In your pod

In my/your pod
There's no one there, we'll be
Alone
We can talk
And make love the whole night through
And relax, have fun
In my/your pod

Now that we're left alone Touch me and kiss me and Love me
