

# Superfriend

Rivers Cuomo

What the hell am I doing  
Thinking with my willy?  
Knowing I don't love her  
I tell her no  
Then kiss her toes

What the heck are you doing  
Leading on that poor girl?  
I know there's  
Something better  
Deep in you  
Now let it through

Pain, pain go away  
Go away  
Come again another day  
Another day  
'Cause I've got  
A friend tonight  
Tonight  
A superfriend to  
Make things right

Turn away from weakness  
Turn to something better  
Show me how to live right  
I never noticed you  
Now I worship you

Don't be talking silly  
Save deceits  
For the young girls  
You can talk  
For real to me  
Close your eyes  
And leave the lies

Pain, pain go away  
Come again another day  
I got a friend tonight  
A superfriend  
To make things right
