Loose Heart

Raise me up Don't let me fall Cause I don't get myself I feel like I felt before But can't find my way

All those feelings went away I may not be what you think I am Think we ought to find ourselves Think we ought to find ourselves Again...

Raise me up Don't let me fall Cause it's getting so hard I feel like I felt before Maybe I only try?

All those feelings went away I may not be what you think I am Think we ought to find ourselves Think we ought to find ourselves again All those questions never asked All those days are coming back to me now Dreams that can't be realised All those nights are coming back to me now And I know there're coming back to you

Raise me up, don't let me fall

Riverside
