

# Ultimate Trip

## Riverside

Even if I had my life to live (over again)  
Even if I had my life to live (over again)  
I would keep coming back to the same place  
Waiting on the shore for me to return (2x)

I'm nourished by  
Your day's residues  
Seeing through the veil  
Unclose your mind

I'm the reflection of  
All your waking lives  
Narcoleptic sins  
Unclose your mind

In the depth of my  
Can control your life  
With your shell around  
Unclose your mind

I'm your amber light  
Way of passing time  
Movement of your eye  
(Incoherent chant)

I'm your better life  
Hidden desire  
Never Neverland  
Unclose your mind

We could be so good  
Broken looking-glass  
So much left unsaid

Fearless on top  
Fearland at heart (7x)

And now you will be my soul mate  
I am going to make you up again  
It's OK now but I don't know how long it needs to last  
Sooner or later I want you to come and get me out of here  
Sooner or later I want you to come and get me  
Sooner or later I will need you  
Sooner or later

Closed inside  
I have my life back  
Trapped inside  
I give my life back (2x)
