

Garden

Rizzle Kicks

Ay yo
Come into my garden
Check out these ideas I've planted
Some of them have florest from the time in which they started
Others barley lasted
Some others turned disastrous
The way of growing some of them is a skill I haven't mastered
Still I find budding one at the right time
Vibes right
It can grow sky high
And likewise
We get weeds tryna eff up your stees but believe that all you need to
Deal with this is realize that all life is in the wilderness
The ones that rise above it are the ones who got some will to live
And the grounds in which I plant I thought are limitless
I believe I got a thought that you'd of thought I'd start pinchin' it
Found this place I can look back since and I don't need my family tree to sn
ap twigs
Yeah they'd like me to plant
Where it's dry and it's dark but
Only my roots are that thick
Ya dig

I want you to check out my garden
Where everything is so fresh
Try not to be too disheartened
Rise here, ideas will grow best
I
Watch over it everyday
To make sure it's okay
But tread on my plants
In school I got more ideas than got grades

Yes I'm fresher than a Daisy
No definatley maybe
The place is oasis but no sense of it is vasey
I've learnt that the game's about waitin'
A lot of it grew
When in December it was rainy
But be that as it may
We just wanna win to pay for some of the best starters to spring up today
And we're autumn
Sorry I mean awesome
A little bit of seasoning, support and see some
Some like it dark and some other ones prefer it lighter
And if you plant enough seeds then we'll surprise ya
Yeah the other day I found a flower and she's looking really pretty so tomor
row I'ma fertalise her
Found this place I can look back since and I don't need my family tree to sn
ap twigs
Yeah they'd like me to plant
Where it's dry and it's dark but
Only my roots are that thick
Ya dig

I want you to check out my garden
Where everything is so fresh

Try not to be too disheartened
Rise here, ideas will grow best
I
Watch over it everyday
To make sure it's okay
