

# No Way Out

Roadrunner United

Children carry out your voice, it really matters  
Carry on about your fight and who it shattered  
The blood is skewn around  
And they will kick a man when he's down  
Children carry out your voice, it really matters

We are never right  
We are forever wrong  
And I believe  
As I ran inside  
We are good enough to be true

Children rise from this with forty words and forty fists  
Carry on around their hope before they're broken  
If the people live in doubt and scream the way out, the way out  
, the way out!  
Children carry out your voice it's all that matters

We are never right  
We are forever wrong  
And I believe  
As I ran inside  
We are good enough to be true

And we don't want to know everything  
We wanna know one thing  
Only tell us where the blood is  
We will clean it up

And we don't want to know everything  
We wanna know one thing  
Only tell us where the blood is  
We will clean it up

We are never right  
We are forever wrong  
And I believe  
As I ran inside  
We are good enough to be true

We are never right  
We are never wrong  
And I believe  
As I ran inside  
We are good enough to true
