

## Father Forgive Them

Rob Rock

Father forgive them, they know not what they do  
Dancing with the devil, gonna walk all over you  
Turn your back to reason, standing on your pride  
For everything's a season and there's no where you can hide

I don't know, I don't know where you're going  
But time is so tight

Mother teach your children, your innocence won't last  
Face the grand illusion, you hide behind the mask  
Looking out for number one, you're running with the pack  
You're living for the moment, the day is coming fast

Father forgive them, they know not what they do  
They're taking their chances and playing with you  
Over and over they don't count the cost  
Sin after sin, nailed to the cross

Father forgive them, they know not what they do  
They're taking their chances and playing with you  
Over and over they don't count the cost  
Sin after sin, nailed to the cross
