

# I'm A Warrior

Rob Rock

I could see the city lights, then they turned to black  
Then I heard the sirens sounding out  
I could see the rockets glare, shooting in the night  
Everyone was praying for their lives

Am I dreaming? I don't believe it  
Am I wrong or right?  
Then I heard a voice say in the night

I'm a warrior - take my hand  
Let me lead you to the promised land  
I'm a warrior - take my hand  
Side by side we'll make our final stand

Then I saw this blinding light - I heard a sonic boom  
I could feel the earth shake in the doom  
Then a silence filled the air, I could not hear a sound  
I could see the ashes all around

Am I dreaming? I don't believe it  
In the dead of night  
I could hear the voice that showed me life

I'm a warrior - take my hand  
Let me lead you to the promised land  
I'm a warrior - take my hand  
Side by side we'll make our final stand  
I'm a warrior

I'm a warrior - take my hand  
Let me lead you to the promised land  
I'm a warrior - take my hand  
Side by side we'll make our final stand  
I'm a warrior
