

Fallin' to Pieces

Rob Thomas

Pray you don't
Lose your place
Dead of night
Underway

All your days
Pass you by
Sun will rise
On your lonely, lonely nights
Pray you sleep tonight
Pray just a little
When every little thing
Starts fallin' to pieces

Take my hand
Fall in place
Soul inside
It shows in every line
That's on your face

Stay with me tonight
Stay I'm gonna need ya when
Every little thing
Starts fallin' to pieces

Ya been around town
Take it down now
Why is it the ones you love
That makes it all so hard on you
Then you let it fall behind
And in the back of your mind
You feel my loving shine
You think you might be saved

Tell me that you want someone beside you
Tell me that you want to see this through
Tell me all the times that I've been loving you
You love me, love me too
