

# Fire on the Mountain

Rob Thomas

Fire on the mountain  
Through the freeze  
Save yourself  
There's evil  
In the garden  
But you don't see it  
I can tell

[Chorus]

How do you sleep while the city's burning  
Where do you go when you can't go home  
How do you drink when there's blood in the water  
Where do you turn when the world moves on  
When the world moves on, on

Fire on the mountain  
You can feel it  
Against your skin  
You're standing  
By the river  
Let the river  
Take you in

How do you sleep while the city's burning  
Where do you go when you can't go home  
How do you drink when there's blood in the water  
Where do you turn when the world moves on  
When the world moves on  
When the world moves on, on  
Yeah

[x2]

Hell, I see smoke out on the horizon  
Mama, get your baby, take her down to the water  
I view the wind like a promise broken  
I see the future but it's getting farther

How do you sleep while the city's burning  
Where do you go when you can't go home  
How do you drink when there's blood in the water  
Where do you turn when the world moves on  
When the world moves on, hey  
When the world moves on, [x3]  
Yeah, oh Yeah, oh yeah world moves on  
That world moves on, yeah
