

Now Comes the Night

Rob Thomas

When the hour is upon us
And our beauty surely gone
No you will not be forgotten
No you will not be alone

And when the day has all but ended
And our echo starts to fade
No you will not be alone then
And you will not be afraid
No you will not be afraid

When the fog has finally lifted
From my cold and tired brow
No I will not leave you crying
And I will not let you down
No I will not let you down
I will not let you down

Now comes the night
Feel it fading away
And the soul underneath
Is it all that remains
So jus slide over here
Leave your fear in the fray
Let us hold to each other
Till the end of our days
