

# Werewolf Women of the SS

Rob Zombie

They are the black widows, baby  
Off the street of Berlin  
Pure wolf is the mission  
She-Devils of sin  
They're in control now  
Strasser you are through  
You are gonna worship  
Everything that they do

Welcome to number 13  
This is where it begins  
Up ahead you will suffer  
Stripping off you skin  
Here come the ladies  
Super women of death  
Gretchen and little Eva  
Pure blood on their breath
