

Werewolf Women of the SS

Rob Zombie

They are the black widows, baby
Off the street of Berlin
Pure wolf is the mission
She-Devils of sin
They're in control now
Strasser you are through
You are gonna worship
Everything that they do

Werewolf women of the SS

Howl baby howl
Howl baby howl

Welcome to number 13
This is where it begins
Up ahead you will suffer
Stripping off you skin
Here come the ladies
Super women of death
Gretchen and little Eva
Pure blood on their breath

Werewolf women of the SS

Howl baby howl
Howl baby howl

Werewolf women of the SS

Howl baby howl
Howl baby howl
Howl baby howl
Howl baby howl
