

She's Not Mine

Robbie Robertson

I come to town, my work is done
Well I just got off the road
It's a long time since I been with someone
I called this lady, so divine
And I asked and I asked
If she'd like to come out sometime

And we talked about some movie
And we laughed at ourselves
And she had a way about her
Like no one else

But I could see clouds
When I looked in her eyes
For I see somebody else's
She's not mine

When I left town my heart was on fire
I was New York bound
She left me so inspired
I wanted to reach her, I made a choice
Oh but talking on the phone
Heard the distance in her voice

And I want to take her over
Oh way across the sea
And I want to bring her over
To visit me

But maybe she thinks
I'm the fugitive kind
Oh she's somebody else's
She's not mine

Oh I wanted to hold her
One more time
Oh but she's somebody else's
She's not mine
Oh she's somebody else's
She's not mine
She's not mine
She's not mine
