Go Outside

Robbie Seay Band

I go outside and praise the God Who mapped the stars out in the sky And gather 'round with those who love and sing He is our King I go outside and praise the God Who mapped the stars out in the sky And gather 'round with those who love and sing, yeah He is our King He is our King No one should be left out No one should be left out No one should be left out And no one should be left out If you have air to breathe And hear your call to sing I go outside and praise the God Who mapped the stars out in the sky And gather 'round with those who love and sing, yeah He is our King He is our King No one should be left out No one should be left out, oh, no No one should be left out And no one should be left out If you have air to breathe And hear the call to sing No one should be left out No one should be left out And no one should be left out No, no one should be left out No one should be left out And no one should be left out, oh, no, no No one should be left out No one should be left out Oh, hear the call to sing Hear the call to sing Hear the call to sing No one should be left out Oh, hear the call to sing Hear your call to sing Hear your call to sing, to sing It's here Hear the call, it's calling you to sing, to sing

Hear the call, it's calling you to sing, to sing Hear the call, it's calling you to sing, to sing

And hear your call to sing Hear your call Hear this call No one should be left out
