

## Cheap Love Song

Robbie Williams

Take your time, to unwind  
You will find it's love you are living  
Clear the space, find a place  
You will see it's love you are giving.

Take you time to make things last  
Love for the future, not the past  
I can't change the way I am  
This is all I got, this Cheap Love Song

Take your time, make it rhyme  
You will see it's all believing  
One fine day, we'll find a way  
You will reach your own destination.

Seven clowns with different faces  
Love we've lost, but we're still chasing  
One day we'll leave this town,  
It's all we've got, this Cheap Love Song.

Take your time, feel fine  
You will see, it's all believing.  
One fine day, we'll find a way  
You will reach your own destination.

Come on, carry on now...

Better make a try now...  
Hold your head up high now...  
Win love.  
It's nothing superficial,  
Been wrote to break the dish, oh  
I'm making it 'ficial  
In love.

Carry on now...
