

# Come Take Me Over

Robbie Williams

Is this a long range effort, 'cause I'll pitch a tent  
I'm kinda used to feeling cold  
Should I walk naked, should I bear my soul  
Won't you help me fill this hole

And what I'm trying to say is be the one  
Love me anyway... though I'm too far gone

Come take me over - I'm riddled with my past  
Come take me over - is that too much to ask  
Before I leave this town - love me or put me down

Got send me heaven, I wanna fall in love  
You said the walking wounded could  
I know I've sent my morals to an early grave  
Is this the price I have to pay

What I'm tryin 'a say, if I could touch  
The love I fantasize, fantasize too much

Come take me over - I'm riddled with my past  
Come take me over - Is that too much to ask?  
Before I leave this town - love me

Take me to the shops, tie me up and abuse me  
I'm looking good, so how could you refuse me  
See I'm so special, why ain't you cooking for two?

I'll meet your mum, I'll meet your friends  
When you comin' down,  
I'll love you through the bends  
I know I'm special, but why ain't you cooking for two?

I guess what I'm try'na say,  
Is what I've never known  
Can't use it anyway, just give me love

Come take me over - Gonna be the last  
Come take me over - If she don't meet this task  
Before I leave this town - Love me or put me down
