## **Come Take Me Over**

**Robbie Williams** 

Is this a long range effort, 'cause I'll pitch a tent I'm kinda used to feeling cold Should I walk naked, should I bear my soul Won't you help me fill this hole

And what I'm trying to say is be the one Love me anyway... though I'm too far gone

Come take me over - I'm riddled with my past Come take me over - is that too much to ask Before I leave this town - love me or put me down

Got send me heaven, I wanna fall in love You said the walking wounded could I know I've sent my morals to an early grave Is this the price I have to pay

What I'm tryin 'a say, if I could touch The love I fantasize, fantasize too much

Come take me over - I'm riddled with my past Come take me over - Is that too much to ask? Before I leave this town - love me

Take me to the shops, tie me up and abuse me I'm looking good, so how could you refuse me See I'm so special, why ain't you cooking for two?

I'll meet your mum, I'll meet your friends
When you comin' down,
I'll love you through the bends
I know I'm special, but why ain't you cooking for two?

I guess what I'm try'na say, Is what I've never known Can't use it anyway, just give me love

Come take me over - Gonna be the last Come take me over - If she don't meet this task Before I leave this town - Love me or put me down
