

# Fairytales

Robbie Williams

Raise up your glass, mighty heathen  
Raise it up while we're still breathin'  
You and I don't need a season  
To start it all off for no reason

Here we come  
Howlin' at dawn at the sun  
Bring a friend  
We'll need someone to blame when we're done

Two, three, four  
I hear them callin', the angels are singin'  
From far away  
When I get this feelin' then I start believin'  
In fairytales  
Even though sometimes we're driftin' apart  
'Tis the season to make a new start  
'Cause I believe in Christmas

Next year, I'll wish you more laughter  
And plenty of whatever you're after

Here we come  
Let's howl at the moon then the sun  
Laugh along  
We'll need someone to blame when we're done

Two, three, four  
I hear them callin', the angels are singin'  
From far away  
When I get this feelin' then I start believin'  
In fairytales  
Even though sometimes we're driftin' apart  
'Tis the season to make a new start  
And we all believe in Christmas

Here we are  
Let's howl at the moon from the bar  
Come on, star  
Everyone knows who we are

Two, three, oh  
I hear them callin', the angels are singin'  
From far away  
When I get this feelin' then I start believin'  
In fairytales  
Even though sometimes we're driftin' apart  
'Tis the season to make a new start  
Sometimes you've gotta look deep in your heart  
Zero the score and follow the stars  
And we all believe  
All believe in Christmas
