

# Greenlight

Robbie Williams

A kind of fire seldom seen  
Stepping into your machine  
Hoping I can turn it on

She dances all night and sleeps all day  
Her room's a mess, her dad's away  
She puts her heroes on the wall

With her green light  
Green light  
To hold a faded flower to my chest  
Green light, green light  
Cause only faded flowers are the best

She said the things you will expect  
From magazines, her intellect  
These are words I will forget  
She likes the boys that sing the songs  
Something wicked this way comes  
I know I can sing along

Just give me the green light  
Green light  
To hold a faded flower to my chest  
Green light, green light  
Cause underrated flowers are the best

I was barely out of school  
...  
She knew someone who I was with  
I've never seen anything like her before  
She is trouble  
Exquisite trouble  
I'm out of your league son  
She seemed to say  
And for a little while  
She was

Leave the light on  
Leave the light on  
Ohh ohh oh oh, ohh ohh oh oh

Leave the light on  
Just leave the light on  
Ohh ohh oh oh, ohh ohh oh oh  
Ohh ohh oh

She gave me the green light  
Green light  
To hold the faded flower to my chest  
She gave me the green light  
Green light  
Those overrated flowers are the best

Cause only faded flowers are the best
