

# Into the Silence

Robbie Williams

When karma reaches you I wanna be there just in case I need to  
You made me be so cruel to myself  
But I'm a fowl of the power of love  
You need him

When karma reaches you I wanna be there to catch that fall  
Get down beside you and watch you crawl  
How does it feel to be alone?  
You happy now?

I won't fall apart again  
You won't break my heart

If I told you my secrets  
You'd never look at me the same way  
Well I guess you're right, some things I can't change

When karma reaches you I wanna be there just in case, let me tell

I won't fall apart again  
Don't test my heart

Is there any wonder  
With the seconds you signed up  
Who should sing for the hunger?  
Was it meant to the violin?

Into the silence  
Into the silence  
Into the silence  
Into the silence

When karma reaches you I wanna be there to catch that fall  
Get down beside you and watch you crawl  
How does it feel to be alone?  
Now then

I won't fall apart again  
You won't break my heart

Is there any wonder  
With the seconds you signed up  
Who should sing for the hunger?  
Was it meant to the violin?

Into the silence  
Into the silence  
Into the silence  
Into the silence
