

# Surrender

Robbie Williams

I came in peace and I survived  
I let the light destroy the lies  
Till there's is no bitterness inside  
And I'll be kind but I won't be cheap  
There is no limit here for me  
I'm taking everything I need  
The roads of life but run by feet travelling  
Take your soul before you leave and it can  
Break you down if you don't break through  
Take back control

When you feel like hope is gone and there's no need to soldier  
on  
No surrender, don't you surrender my love

I bit the world, the world bit back  
The shout of love is not a net and I care less if you don't und  
erstand  
So when they sing the symphony it will be written just for me  
The most joyous melody  
Seek joy, avoid pain, wake up and do it again  
This is your home, this is your life, take back control

When you feel like hope is gone and there's no need to soldier  
on  
No surrender, now don't you surrender my love  
'Cause you're not here for very long, so when you leave go with  
a song  
No surrender, let be no surrender my love  
Treat me like a king, kiss me like a stranger (x4)

When you feel like hope is gone and there's no need to soldier  
on  
No surrender, don't you surrender my love  
'Cause you're not here for very long, so when you leave go with  
a song  
No surrender, let be no surrender my love  
Treat me like a king, kiss me like a stranger (x2)
