

## Chicken In The Kitchen

Robert Cray

I do all the cooking in our house babe  
You're always running around  
I do all the cooking in our house babe  
You're always running around

There'll be no more chicken in the kitchen  
If you don't try to settle down

You come home late for supper now babe  
And your tale I just ain't buying  
You come home late for supper now babe  
And your tale I just ain't buying

Well I got a feeling you're eating out now babe  
And someone else is doing the frying

Well you know that I get burned now babe  
That's one thing that can't be denied  
And when I serve up my main course now babe  
You always get your choice of size

Well you know that I get burned now babe  
That's one thing that can't be denied  
And when I serve up my main course now babe  
You always tell me you're so satisfied

You gotta change your ways now babe  
I can't take no more of this mess  
You gotta make up your mind now, pretty babe  
I can't take no more of this mess

Cause when it comes to real fine cuisine now babe  
You'll realize I was the best

There'll be no more chicken in the kitchen  
I am the best
