

# Don't Steal My Love

Robert Cray

Don't steal my love like a thief in the night  
Don't lure me in the dark searching for your light  
If you take from me, give something in return  
Don't be so cold, baby, while my fire burns

Touch me like the wind, slip right through my hands  
Don't take my seeds from me and leave me like some mellow land  
If you take from me, give something in return  
Don't be so cold, baby, while my fire burns

Don't steal my love  
Don't steal my love  
Don't steal my love  
Don't steal it

When my night is over and the morning's on my face  
Go from me softly, leave without a trace

Don't take my heart with you  
Don't take my heart with you  
Don't take my soul with you

Don't steal my love  
Don't steal my love  
Don't steal my love  
Don't steal it
