

Love 2009

Robert Cray

Wasting away my life, going through emotions
Everyday is the same, go out and play the game
All my life I've been searching for someone new
Not sure what to do, then I found you

Love comes and goes
Don't you agree?
This time it stays with you and me
Well, that's how it's gonna be, love

[?] before, can always walk out
Always ends the same, all my love's in vain
So I keep my head up and look the other way, yes
Never really knowing, no, no, if it can happen someday

You know that love comes and goes
Don't you agree?
This time it stays with you and me
Well, that's how it's gonna be

If you let me love you, baby
Oh yeah, yeah, yeah

Love comes and goes
Don't you agree?
But this time it stays with you and me
Oh, that's how it's gonna be, love

Don't you know that love comes and goes?
Don't you agree?
This time it stays with you and me
Oh, that's how it's gonna be, baby

If you let me love you, baby
Oh, oh, yes, yeah
Oh, that's how it's gonna be, love
Oh, that's how it's gonna be, be, yeah

I keep my head up, look the other way
Till I find, yes, till I find myself somebody to love
To love, to love, yeah, yeah, yeah
Till I find, I just gotta keep looking, man

Till I find, oh yeah
Till I find love, love, love 2009
