

# She's Into Something

Robert Cray

(Say what she do!)

The snappin' of her finger makes the dog wags its tail  
The whistle from her voice will make the train jump the rail  
Take her to a race track  
Show her face  
Horse that ain't won in years  
Comes in first place

You know that, she's into something  
Yeah, she's into something  
She's into something  
You should be into something, too

Well ya' laughed at her about a week ago  
Now she's met a man with a whole lotta dough  
And oh yeah, he's rich  
I've seen the money  
All she had to do was to call the man honey

Honey, honey  
She's into something  
Yeah, she's into something  
Man, she's into something  
You should be into something, too

Every day of her life  
She rides around on wheels  
And oh yeah, you might say she's got herself a stone-cold deal  
One thing the girl, she don't have to do  
Is worry about no money when the payment's due

You know, she's into something  
Yeah, she's into something  
Man, she's into something  
You should be into something, too

Hey, hey  
Mmmm  
Hey, hey, yeah!  
Mmmm  
Yeah, yeah, yeah

(Say what she do!)
