

Your Secret's Safe with Me

Robert Cray

Baby you should keep your bedroom shades pulled down
I can see right in, I've seen you in that black nightgown
I've seen you with your lover, when you're man's not in town

But don't worry babe, you're secret's safe with me

I'm very, very jealous
For weeks I've wanted you
I never made a move
I'd never dreamed you'd be untrue

Imagine my surprise
When I see you loving someone new

Don't worry babe, you're secret's safe with me

Don't worry babe, you're secret's safe with me

Ohh, sometimes when you're alone
Got all one evening free

Baby, call me up at 685-2033
2033

Your secret's safe with me

Ohh, call me anytime, baby

Your secret's safe with me

Baby you should keep your bedroom shades pulled down
I can see right in, I've seen you in that black nightgown
I've seen you with your lover, when you're man's out of town

Don't worry, babe
Your secret's safe with me

Ohhhhhh
Don't worry
Your secret's safe with me

Don't you worry about me, baby
Your secret's safe with me

Call me, baby
I'll be there

Call me
685-2053

Call me, baby
And don't you worry about me

Uhh, your secret's safe with me
Ahh, sometimes I get so jealous
