

Feels Like

Robert DeLong

He drove fast, he drove at night
He didn't break, he had no time
Before she hadn't thought she might say that she had left me
Before I was alone, waiting blankets in the love seat

Pulling covers over her eyes
Not making love, just keeping time
Before he hit the car, there was a woman in the backseat
Before she had the chance to say she didn't love me

I don't even know what you wanted at all
But it feels like, feels like you wanted it
And I don't feel the pain but remember the fall
When it felt like, felt like you wanted it
(2x)

I don't stay sad

I gotta pay my bills, I gotta pay my bills
She was passing on his side
He came over the hill into the light
And they collide

I don't even know what you wanted at all
But it feels like, feels like you wanted it
And I don't feel the pain but remember the fall
When it felt like, felt like you wanted it
(2x)

We're just trapped, like we're living in a snow globe
The world we had, it's always fighting with the 'don't knows'
You can't tell what you're gonna get
Go to hell, what we thought it is
I swear it felt like you wanted it

I don't even know what you wanted at all
But it feels like, feels like you wanted it
And I don't feel the pain but remember the fall
When it felt like, felt like you wanted it
(3x)
